

HENRY & PETERS

CERTIFIED PUBLIC ACCOUNTANTS | EST. 1929

Tyler | Longview | Frisco

Texas-based CPA Firm.

Tax, Audit, Client Accounting Services, Advising

Real confidence and capability for your business

More Than Accounting.

More insight. More capability. More confidence.

After more than 90 years of earning trust with our clients, we have confidence in our ability to help meet your challenges and capture your opportunities. We invite you to check our credentials, talk with business owners, and see what we're achieving with the people in our communities. We believe you'll agree we're uniquely qualified to help you advance your business.

Tax Planning & Preparation

We start with learning—what you envision, where you are headed, and how you work. Then we integrate tax planning, consulting, and preparation into custom plans that match your situation and your goals.

Audit/Assurance

More than just an obligation, an audit represents an opportunity to improve the quality of the information used to make better decisions in your business. Our team approaches each audit with the intent of providing sound guidance and recommendations for improvement and greater transparency.

Client Accounting Services

Managing the books doesn't have to be overwhelming. We are here to help and support you by providing turnkey accounting/bookkeeping services or providing support and training to help your employees take care of your business better. Our motto is, "We will do as much or as little as you need."

Industry Specializations

The professionals at Henry & Peters bring a variety of industry experience. Combined with our communication-first approach and attention to detail, Henry & Peters is set apart from other firms and known for providing actionable, applicable guidance.

Our Commitment

Since 1929, Henry & Peters has worked to understand our clients' objectives, deliver the support they need, and become an integral part of their success in business - which pays off in the overall well-being of our region.

Our Vision

We view our work in tax, audit, advising and client accounting services as a critical service to the community. Although we've grown to be the largest local accounting firm in East Texas, we still measure our achievements by the respect we earn from our clients, employees, and community.

Texas-Based CPA Firm with offices in Tyler, Longview, and Frisco.
